※Comparison with DNP model
CX-D80SRS/DS

Comfortable Card issuance is realized smartly & Securely

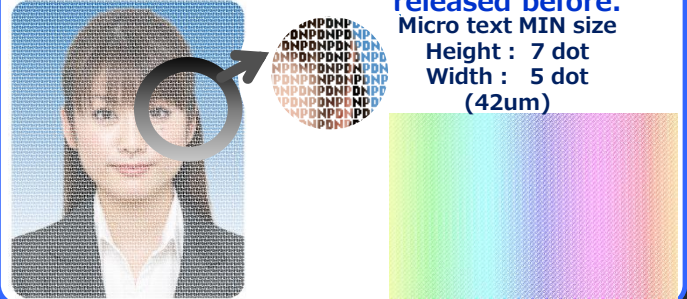

600dpi High Resolution

Colors ,Logo and fine characters ,which was difficult to express by conventional card printer, can be printed clearly.

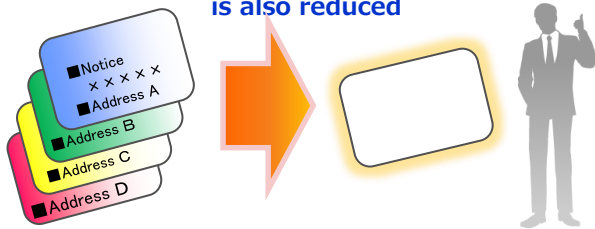

Micro Text Capacity

The high resolution of 600dpi allows printing crisp, tiny characters as the best ever released before.

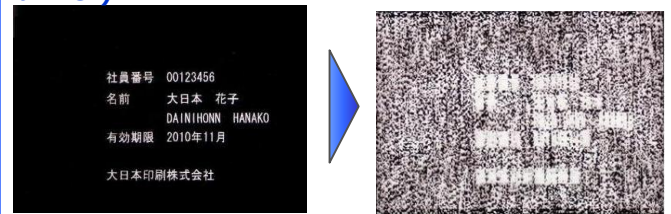

Reduce card cost and inventory management load

Even small characters, such as "address", can be printed by card printer. As pre-printed is not required, Card cost can be reduced. Furthermore, Such load of complicated inventory management as managing printed cards for each denomination is also reduced

Security Erase function

Personal Information is difficult to be read. (Available on only the output from printer driver)

Information left on the K panel of used ink ribbon

After security erase function ※1

Specification	CX-D80HS
